

Product Name :
Redwood Viscometer No.1 Electrically Heated

Product Code :
TEST5071RFQLAB-0002

Description :

Redwood Viscometer No.1 Electrically Heated
Redwood Viscometer No. II (Gas Heated) 1 P 70/62
Redwood Viscometer No.II (Electrically Heated)

Technical Specification :

But the side tube is replaced with a heating element. A variable auto transformer is also provided.
Suitable for operation on 220 volts, 50 Hz, single phase supply.

This Viscometer is for oils whose flow time exceeds 2000 seconds and is suitable for use at temperatures upto 260°C. The apparatus has a silver plated brass cup with a cover and its base is prolonged as a brass tube. A cylindrical copper water bath which is fitted with two heating tubes and a drain cock is mounted on a stand with levelling screws. Supplied complete with a circular spirit level, a clip for thermometer, a stirrer with insulated handle and a 50 ml.Flask.

But the side tube is replaced by a heating element. It is provided with a variable auto transformer and is suitable for operation on 20V, 50Hz, single phase supply.

We are a leading manufacturers of Redwood Viscometer No.1 Gas Heated testing equipment for a range of industries, including materials science testing lab. We offer full range of Redwood Viscometer No.1 Gas Heated testing equipment, including Redwood Viscometer No.1 Gas Heated testing kit, Redwood Viscometer No.1 Gas Heated testing machine, Redwood Viscometer No.1 Gas Heated testing tools, Redwood Viscometer No.1 Gas Heated test equipment, Redwood Viscometer No.1 Gas Heated test machines, Redwood Viscometer No.1 Gas

Heated for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Redwood Viscometer No.1 Gas Heated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
