

Product Name :
Marshal Stability Test Apparatus with digital Display

Product Code :
TEST5083RFQLAB-0003

Description :

Marshal Stability Test Apparatus with digital Display

Technical Specification :

This model reduces uncertainty in manually recording of the readings load unit and other accessories are the except that it has digital display unit for indicating of load and flow since the unit is micro processor based it records the flow at maximum load. Serial port. Serial port is a part of the system for Computer communication.

The Unit comprises of
Load Frame: 25kN cap
Rammers: 2 Nos.
Moulds: 3 Nos.
Breaking Head assembly: 1No.
Digital Display: 50 kN
Displacement sensor along with flow meter: +/- 20mm

We are a leading manufacturers of Marshal Stability Test Apparatus with digital Display testing equipment for a range of industries, including materials science testing lab. We offer full range of Marshal Stability Test Apparatus with digital Display testing equipment, including Marshal Stability Test Apparatus with digital Display testing kit, Marshal Stability Test Apparatus with digital Display testing machine, Marshal Stability Test Apparatus with digital Display testing tools, Marshal Stability Test Apparatus with digital Display test equipment, Marshal Stability Test Apparatus with digital Display test machines, Marshal Stability Test Apparatus with digital Display for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the

construction industry. Our mission is to provide reliable, accurate, and easy-to-use Marshal Stability Test Apparatus with digital Display testing equipment that helps customers build better, safer, and more sustainable infrastructure.
