Product Name :
Refrigerated Ductility Testing Machine

Product Code :
TEST5086RFQLAB-0002

Description :

Refrigerated Ductility Testing Machine with Processor Based Temperature and Speed Controller for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Except that it has stepper motor for control of speed and refrigeration system for controlling and maintaining temperature at $27^{\circ} \pm 0.2^{\circ}$.

We are a leading manufacturers of Refrigerated Ductility testing equipment for a range of industries, including materials science testing lab. We offer full range of Refrigerated Ductility testing equipment, including Refrigerated Ductility testing kit, Refrigerated Ductility testing machine, Refrigerated Ductility testing tools, Refrigerated Ductility test equipment, Refrigerated Ductility test machines, Refrigerated Ductility for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Refrigerated Ductility testing equipment that helps customers build better, safer, and more sustainable infrastructure.
