

Product Name :
Vee-Bee Consistometer

Product Code :
TEST5055RFQLAB-0002

Description :

Vee-Bee Consistometer for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Used for estimation of consistency of concrete mix by determination of the time required for transforming sample of fresh concrete in the form of a frustum of a cone into a cylinder by standard vibration.

The apparatus consists of the following: –

A slump cone 100 mm inside dia at top, 200 mm inside dia at base and 300 mm high.

One container for the slump cone with two clamps and lifting handles.

A vibrating table mounted on rubber shock absorbers and having a swivel arm attached on one side. The swivel arm carries a funnel on one side and a graduated rod with a perspex disc on the other side. The rod is graduated in centimeters to measure the slump and volume in the cylinder after vibration. Suitable for operation on 440 V, 50 Hz, 3 phase supply.

We are a leading manufacturers of Vee-Bee Consistometer testing equipment for a range of industries, including materials science testing lab. We offer full range of Vee-Bee Consistometer testing equipment, including Vee-Bee Consistometer testing kit, Vee-Bee Consistometer testing machine, Vee-Bee Consistometer testing tools, Vee-Bee Consistometer test equipment, Vee-Bee Consistometer test machines, Vee-Bee Consistometer for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Vee-Bee Consistometer testing equipment that helps customers build better, safer, and more sustainable infrastructure.
