

Product Name :
Load Frame Hand operated 50 kN

Product Code :
TEST5015RFQLAB-0001

Description :

Load Frame Hand operated 50 kN for Testing Lab Equipment Tender Suppliers India

Technical Specification :

The load frame is designed for a maximum load of 5000 kgf. It consists of a screw jack mounted in a reversible channel frame, which can be used for loading from top to bottom and vice versa.

We are a leading manufacturers of Load Frame Hand operated 50 kN testing equipment for a range of industries, including materials science testing lab. We offer full range of Load Frame Hand operated 50 kN testing equipment, including Load Frame Hand operated 50 kN testing kit, Load Frame Hand operated 50 kN testing machine, Load Frame Hand operated 50 kN testing tools, Load Frame Hand operated 50 kN test equipment, Load Frame Hand operated 50 kN test machines, Load Frame Hand operated 50 kN for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Load Frame Hand operated 50 kN testing equipment that helps customers build better, safer, and more sustainable infrastructure.
