

Product Name :
Lateral Extensometer 150 mm dia

Product Code :
TEST5064RFQLAB-0005

Description :

Lateral Extensometer 150 mm dia

Technical Specification :

For measuring the lateral extension of 15cm dia concrete cylinders during the compression test. The apparatus consists of two semi-circular frames pivoted at one end and carrying a dial gauge of 0.002 mm x 5 mm range at the other. Four clamping screws are provided for initial setting of the instrument. The dial gauge records the deformation readings magnified 2.5 times. Supplied complete in a wooden box.

We are a leading manufacturers of Lateral Extensometer 150 mm dia testing equipment for a range of industries, including materials science testing lab. We offer full range of Lateral Extensometer 150 mm dia testing equipment, including Lateral Extensometer 150 mm dia testing kit, Lateral Extensometer 150 mm dia testing machine, Lateral Extensometer 150 mm dia testing tools, Lateral Extensometer 150 mm dia test equipment, Lateral Extensometer 150 mm dia test machines, Lateral Extensometer 150 mm dia for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Lateral Extensometer 150 mm dia testing equipment that helps customers build better, safer, and more sustainable infrastructure.
