Product Name :
Cylindrical Measures

Product Code :
TEST5067RFQLAB-0005

Description :

Cylindrical Measures

Technical Specification :

Required for determining the bulk density or unit weight of aggregates.
Three calibrated cylindrical measures one each of 3 litre, 15 litre and 30 litre capacity made out of steel sheet with handles, complete with one tamping rod 16 mm dia x 60 cm long rounded at one end.

We are a leading manufacturers of Cylindrical Measures testing equipment for a range of industries, including materials science testing lab. We offer full range of Cylindrical Measures testing equipment, including Cylindrical Measures testing kit, Cylindrical Measures testing machine, Cylindrical Measures testing tools, Cylindrical Measures test equipment, Cylindrical Measures test machines, Cylindrical Measures for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Cylindrical Measures testing equipment that helps customers build better, safer, and more sustainable infrastructure.
