Product Name :
Pre-Stressing Jacks

Product Code :
TEST5068RFQLAB-0004

Description :

Pre-Stressing Jacks

Technical Specification :

These specially designed jacks find extensive application in the field of pre-stressed concrete. They can be effectively used for tensioning of wires, cables or strands up to the designed capacity and are ideal for jerk free release of load after pre-stressing operation is over. A specially designed double action hand operated pump is supplied with these jacks. Load gauge is not supplied as standard but can be provided at extra cost if requested. Two jacks can be operated simultaneously or individually with these pumping units.

Capacity
500 KN
750 KN
1000 KN

We are a leading manufacturer of Pre-Stressing Jacks testing equipment for a range of industries, including materials science testing lab. We offer full range of Pre-Stressing Jacks testing equipment, including Pre-Stressing Jacks testing kit, Pre-Stressing Jacks testing machine, Pre-Stressing Jacks testing tools, Pre-Stressing Jacks test equipment, Pre-Stressing Jacks test machines, Pre-Stressing Jacks for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Pre-Stressing Jacks testing equipment that helps customers build better, safer, and more sustainable infrastructure.
