

Product Name :
Sand Pouring Cylinder Large

Product Code :
TEST5006RFQLAB-0003

Description :

Sand Pouring Cylinder Large

Technical Specification :

The apparatus is suitable for estimation of field density of fine, medium and coarse grained soils, and consists of:-

Sand Pouring Cylinder, 215 mm internal dia, with conical funnel and shutter.

Calibrating container 200 mm inner dia x 250 mm high with 75 mm wide flange.

Metal tray 450 mm square x 50 mm deep with a 200 mm dia hole at the centre.

We are a leading manufacturer of Sand Pouring Cylinder Large testing equipment for a range of industries, including materials science testing lab. We offer full range of Sand Pouring Cylinder Large testing equipment, including Sand Pouring Cylinder Large testing kit, Sand Pouring Cylinder Large testing machine, Sand Pouring Cylinder Large testing tools, Sand Pouring Cylinder Large test equipment, Sand Pouring Cylinder Large test machines, Sand Pouring Cylinder Large testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Sand Pouring Cylinder Large testing equipment that helps customers build better, safer, and more sustainable infrastructure.
