

Product Name :
Hydraulic Extruder Motorised

Product Code :
TEST5009RFQLAB-0003

Description :

Hydraulic Extruder Motorised

Technical Specification :

This Hydraulic Extractor Frame is a motorised unit complete with, Hydraulic Jack with stroke of 600 mm and thrust force of 9000 kgf. It has a control valve for the control of direction of movement of the piston (Ram) and a relief valve to limit the load between 9000 kgf and 10000 kgf. Following adopter plates and adopters for different size of tubes are supplied with the unit..

Metric Size

Adopter plates for 38, 50, 75, 100, 150 mm tubes. Adopter for 38, 50, 75, 100, 150 mm tubes. Wired for 220 volts, 50 Hz supply.

We are a leading manufacturers of Hydraulic Extruder Motorised testing equipment for a range of industries, including materials science testing lab. We offer full range of Hydraulic Extruder Motorised testing equipment, including Hydraulic Extruder Motorised testing kit, Hydraulic Extruder Motorised testing machine, Hydraulic Extruder Motorised testing tools, Hydraulic Extruder Motorised test equipment, Hydraulic Extruder Motorised test machines, Hydraulic Extruder Motorised testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Hydraulic Extruder Motorised testing equipment that helps customers build better, safer, and more sustainable infrastructure.
