

Product Name :
Plate Load Test Apparatus

Product Code :
TEST5030RFQLAB-0001

Description :

Plate Load Test Apparatus for Testing Lab Equipment Tender Suppliers India

Technical Specification :

The unit incorporates a two speed geared drive assembly and is provided with two handles for ease of operation. The essential features are a frame to which is mounted a two column structure. The cross head carries the winch mechanism with a pinion driving a long travel geared rack.

The apparatus consists of :-

Hydraulic jack – 500 kN (50,000 kgf.) supplied complete with hand operated pumping unit having 150 mm dia pressure gauge and one 5 meter long metal or flexible connecting pipe with adopters – 1 set.

Ball and socket assembly – 1 set

Set of MS plates

600 mm x 600 mm x 25 mm – 1 No.

450 mm x 450 mm x 25 mm – 1 No.

300 mm x 300 mm x 25 mm – 1 No.

'L' Bracket for Dial Gauge – 4 Nos.

Connecting pipe set consisting of one 60 cm long & two 30 cm long extensions with nuts and bolts.

We are a leading manufacturers of Plate Load Test Apparatus testing equipment for a range of industries, including materials science testing lab. We offer full range of Plate Load Test Apparatus testing equipment, including Plate Load Test Apparatus testing kit, Plate Load Test Apparatus testing machine, Plate Load Test Apparatus testing tools, Plate Load Test Apparatus test equipment, Plate Load Test Apparatus test machines, Plate Load Test Apparatus for Lab Testing Instruments. We are suppliers of materials testing tools and

equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Plate Load Test Apparatus testing equipment that helps customers build better, safer, and more sustainable infrastructure.
