

Product Name :
Swell Pressure Test Apparatus

Product Code :
TEST5011RFQLAB-0005

Description :

Swell Pressure Test Apparatus

Technical Specification :

Test is performed as. For measuring the swelling pressure of partially saturated soils when subjected to saturation.

The apparatus consists of :-

Load frame, 500kg (5kN) capacity, hand operated.

Mould with 100 mm internal dia x 127.3 mm high, 1000 cm³ volume.

Proving Ring 250 kg (2.5 kN) capacity with load transfer bar and steel ball.

Soaking tank 25 cm dia x 20 cm high.

Dial gauge 0. 01 x 25mm

We are a leading manufacturers of Swell Pressure Test Apparatus testing equipment for a range of industries, including materials science testing lab. We offer full range of Swell Pressure Test Apparatus testing equipment, including Swell Pressure Test Apparatus testing kit, Swell Pressure Test Apparatus testing machine, Swell Pressure Test Apparatus testing tools, Swell Pressure Test Apparatus test equipment, Swell Pressure Test Apparatus test machines, Swell Pressure Test Apparatus testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Swell Pressure Test Apparatus testing equipment that helps customers build better, safer, and more sustainable infrastructure.
