

Product Name :
Load Frame Motorised 50 kN

Product Code :
TEST5015RFQLAB-0003

Description :

Load Frame Motorised 50 kN

Technical Specification :

Multi rate of strain.

Designed to accommodate Universal Triaxial Cell for testing soil specimens up to 100 mm in diameter. A turret type motor drive gear unit to give 30 different rates of strain ranging from 6 mm/min down to 0.00048 mm/min The motor and gear box assembly are housed in an elegant free standing console and electrical controls have been provided on the front panel of the load frame. Triaxial testing equipment is very suitable for operation on 220V, 50 Hz, Single phase supply.

We are a leading manufacturers of Load Frame Motorised 50 kN testing equipment for a range of industries, including materials science testing lab. We offer full range of Load Frame Motorised 50 kN testing equipment, including Load Frame Motorised 50 kN testing kit, Load Frame Motorised 50 kN testing machine, Load Frame Motorised 50 kN testing tools, Load Frame Motorised 50 kN test equipment, Load Frame Motorised 50 kN test machines, Load Frame Motorised 50 kN for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Load Frame Motorised 50 kN testing equipment that helps customers build better, safer, and more sustainable infrastructure.
