Product Name :
Sampling Kit For 100 mm Sampler

Product Code :
TEST5026RFQLAB-0002

Description :

Sampling Kit For 100 mm Sampler for Testing Lab Equipment Tender Suppliers India

Technical Specification :

It is a portable kit designed for field used to collect 100 mm diameter undisturbed samples at different depths. It comprises the following :-

auger outfit, 150 mm diameter, complete with one meter long extension rod, T-piece and handle.

1 Meter long extension rods – 5 Nos.

Samplers with cutting shoe (Area Ratio 15 to 20%)

For collecting undisturbed samples, these can be used sampling kit. Length of the sampler is 450 mm and each sampler is supplied with two end caps cutting shoe, driving head had three C-spanners.

Sampler 50 mm diameter x 450 mm long.

Sampler 70 mm diameter x 450 mm long.

Sampler 100 mm diameter x 450mm long.

We are a leading manufacturers of Sampling Kit For 100 mm Sampler testing equipment for a range of industries, including materials science testing lab. We offer full range of Sampling Kit For 100 mm Sampler testing equipment, including Sampling Kit For 100 mm Sampler testing kit, Sampling Kit For 100 mm Sampler testing machine, Sampling Kit For 100 mm Sampler testing tools, Sampling Kit For 100 mm Sampler test equipment, Sampling Kit For 100 mm Sampler test machines, Sampling Kit For 100 mm Sampler for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Sampling Kit For 100 mm Sampler testing equipment that helps customers build better, safer, and more sustainable infrastructure.
