Product Name :
Emulsified Asphalt Storage Stability Tester

Product Code :
TEST5112RFQLAB-0001

Description :

Emulsified Asphalt Storage Stability Tester for Testing Lab Equipment Tender Suppliers India

Technical Specification :

- Emulsion stability tester is used for the determination of the storage stability of asphalt emulsions.
- Glass tube: Effective height: 310mm Mark line: 250ml Sample loading entrance: $\varnothing 32\text{mm} \pm 0.1\text{mm}$
- Metal test tube stand
- Metal test tube holder
- Professional test tube
- Test tube plug ($\varnothing 32$)
- Branch tube plug ($\varnothing 11$)
- Operation manual
- Quality certificate
- Repair guarantee

We are a leading manufacturers of Emulsified Asphalt Storage Stability testing equipment for a range of industries, including materials science testing lab. We offer full range of Emulsified Asphalt Storage Stability testing equipment, including Emulsified Asphalt Storage Stability testing kit, Emulsified Asphalt Storage Stability testing machine, Emulsified Asphalt Storage Stability testing tools, Emulsified Asphalt Storage Stability test equipment, Emulsified Asphalt Storage Stability test machines, Emulsified Asphalt Storage Stability for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Emulsified Asphalt Storage Stability testing equipment that helps customers build better, safer, and more sustainable infrastructure.
