

Product Name :
Compression Testing Machine Automatic

Product Code :
TEST5130RFQLAB-0001

Description :

Compression Testing Machine Automatic for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Compression testing machine with pc control is a semi-automatic high-precision compression machine which applies the loads on the specimen by means of hydraulic pressure. The computer makes closed-loop control, automatic measurement, data acquisition and processing.

Max. capacity: 2000kN

Measuring range: 2-100% full range with no grading

Accurate display: 1 grade

Relative error: $\pm 1\%$

load rate rang: 0.2~10kN/s

Column: 4pcs

Distance between columns: 290mm

Platen size: 220x290mm

Max. vertical clearance between platens: 330mm

Max. travel of piston: 40mm

Diameter of piston: $\varnothing 250\text{mm}$

Power supply: 220V AC, 750W

We are a leading manufacturers of Compression Testing Machine Automatic testing equipment for a range of industries, including materials science testing lab. We offer full range of Compression Testing Machine Automatic testing equipment, including Compression Testing Machine Automatic testing kit, Compression

Testing Machine Automatic testing machine, Compression Testing Machine Automatic testing tools, Compression Testing Machine Automatic test equipment, Compression Testing Machine Automatic test machines, Compression Testing Machine Automatic for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Compression Testing Machine Automatic testing equipment that helps customers build better, safer, and more sustainable infrastructure.
