

Product Name :
Concrete Test Hammer 25mm

Product Code :
TEST5132RFQLAB-0002

Description :

Concrete Test Hammer 25mm for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Concrete test hammer is intended for carrying out non-destructive tests on concrete structures. It gives an immediate indication of the compressive strength of the concrete using the calibration curve applied each hammer.

Measuring range: 10~60Mpa

Standard impact energy: 2.207Nm

Stroke of rebound hammer: 75mm

Friction of pointer slider: 0.5N~0.8N

Sphere radius of rebound pole (SR): 25mm±1mm

Average rebound value on steel anvil (Rm): 80±2

We are a leading manufacturers of Concrete Test Hammer 25mm testing equipment for a range of industries, including materials science testing lab. We offer full range of Concrete Test Hammer 25mm testing equipment, including Concrete Test Hammer 25mm testing kit, Concrete Test Hammer 25mm testing machine, Concrete Test Hammer 25mm testing tools, Concrete Test Hammer 25mm test equipment, Concrete Test Hammer 25mm test machines, Concrete Test Hammer 25mm for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Concrete Test Hammer 25mm testing equipment that helps customers build better, safer, and more sustainable infrastructure.
