

Product Name :
Mechanical Concrete Test Hammer

Product Code :
TEST5132RFQLAB-0004

Description :

Mechanical Concrete Test Hammer

Technical Specification :

Concrete test hammer achieves digital reporting and data sharing via USB interface and Bluetooth. This test hammer is available in wirelessly connecting to a Bluetooth printer and directly printing out test results. Digital part can be separated from main body and coupled with mechanical hammer by a simple push. Once the hammer broke during testing, can easily exchange another hammer and continue to work. The hammer can work as normal without digital part as well.

By Bluetooth data in memory can be downloaded to PC or micro printer wireless.

Type: Digital+mechanical

Display: OLED

Accuracy: ± 0.1

Communication: USB, Bluetooth

Voice: NO.

Memory: 1000

Measuring range: 10-100N/mm²

Impact energy: 2.207Nm

Spring rigidity: 785

Stroke distance: 75

Rebound value: 80

Repeatability: Less than ± 1

Battery: Li-battery

Weight: Around 1.1kg
Optional printer: Yes

We are a leading manufacturers of Mechanical Concrete Test Hammer testing equipment for a range of industries, including materials science testing lab. We offer full range of Mechanical Concrete Test Hammer testing equipment, including Mechanical Concrete Test Hammer testing kit, Mechanical Concrete Test Hammer testing machine, Mechanical Concrete Test Hammer testing tools, Mechanical Concrete Test Hammer test equipment, Mechanical Concrete Test Hammer test machines, Mechanical Concrete Test Hammer for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Mechanical Concrete Test Hammer testing equipment that helps customers build better, safer, and more sustainable infrastructure.
