

**Product Name :**  
Concrete Water Permeability Testing Machine Analog

**Product Code :**  
TEST5134RFQLAB-0001

**Description :**

Concrete Water Permeability Testing Machine Analog for Testing Lab Equipment Tender Suppliers India

**Technical Specification :**

Concrete water permeability apparatus is a gauge type instrument used to test the impermeability of concrete and to determine the impermeability grade.

Max. pressure: 4Mpa

Test specimen in one time: 6pcs

Mode: Constant pressure/constant pressure with increasing pressure

Power: 220V 50Hz 120W

We are a leading manufacturers of Concrete Water Permeability Testing Machine Analog testing equipment for a range of industries, including materials science testing lab. We offer full range of Concrete Water Permeability Testing Machine Analog testing equipment, including Concrete Water Permeability Testing Machine Analog testing kit, Concrete Water Permeability Testing Machine Analog testing machine, Concrete Water Permeability Testing Machine Analog testing tools, Concrete Water Permeability Testing Machine Analog test equipment, Concrete Water Permeability Testing Machine Analog test machines, Concrete Water Permeability Testing Machine Analog for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Concrete Water Permeability Testing Machine Analog testing equipment that helps customers build better, safer, and more sustainable infrastructure.
