

Product Name :
Rock Permeability Testing

Product Code :
TEST5049RFQLAB-0001

Description :

Rock Permeability Testing for Testing Lab Equipment Tender Suppliers India

Technical Specification :

The instrument meets the essential requirements laid down.

It is single panel unit on which are mounted a set of valves, pressure gauge, pressure regulator, brass water reservoir, graduated glass tube etc.

The outlet of the reservoir is connected to the top of the permeability cell. It is made out of non-corrosive material or MS chemically coated for rust protection.

Air-vent valve is provided on the top plate, while at the bottom a funnel is fixed through which passes the percolated water to the measuring bottle.

Cell can accommodate 100 mm dia x 100 mm high specimen

We are a leading manufacturers of Rock Permeability Testing testing equipment for a range of industries, including materials science testing lab. We offer full range of Rock Permeability Testing testing equipment, including Rock Permeability Testing testing kit, Rock Permeability Testing testing machine, Rock Permeability Testing testing tools, Rock Permeability Testing test equipment, Rock Permeability Testing test machines, Rock Permeability Testing for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Rock Permeability Testing testing equipment that helps customers build better, safer, and more sustainable infrastructure.
