

Product Name :
Diamond Core Drilling Machine Electric

Product Code :
TEST5035RFQLAB-0005

Description :

Diamond Core Drilling Machine Electric

Technical Specification :

core drilling machines can drill different materials (such as concrete, rocks, bituminous surfaces, etc.) and obtain cylindrical samples to be used in tests (compression, evaluation of the elastic module , etc).

These drilling machines are extremely practical, lightweight and easy to use. Diamond bit, spanner and core extractor are considered accessories to be ordered separately.

Drilling range: Ø5-160mm

Rated voltage: 110/220V

Rated frequency : 50-60Hz

Rated input power: 2100W

No-load speed: 800/1790/3650r/min

We are a leading manufacturers of Diamond Core Drilling Machine Electric testing equipment for a range of industries, including materials science testing lab. We offer full range of Diamond Core Drilling Machine Electric testing equipment, including Diamond Core Drilling Machine Electric testing kit, Diamond Core Drilling Machine Electric testing machine, Diamond Core Drilling Machine Electric testing tools, Diamond Core Drilling Machine Electric test equipment, Diamond Core Drilling Machine Electric test machines, Diamond Core Drilling Machine Electric for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Diamond Core Drilling Machine Electric testing equipment that helps customers build better, safer, and more sustainable infrastructure.
