

**Product Name :**  
Pull-Off Adhesion Hydraulic Tester

**Product Code :**  
TEST5143RFQLAB-0002

**Description :**

Pull-Off Adhesion Hydraulic Tester for Testing Lab Equipment Tender Suppliers India

**Technical Specification :**

Bond strength tester is a compact portable machine to test adhesive strength of decorative bricks, mosaics, plates, paints, surface coatings on its support and various exterior building materials on external walls. This pull-off adhesion tester also can test bond strength of external insulation materials.

**Technical Parameters**

Structure: integrated

Hydraulic cylinder stroke: 10mm

Display mode: KN, Mpa, switchable

Measuring range: 0~10kN

Resolution: 0.001kN

Peak hold: yes

Data storage: more than 500

Main material: high-strength aluminum alloy, lightweight material

Body weight: 2.0kg

We are a leading manufacturers of Pull-Off Adhesion Hydraulic Tester testing equipment for a range of industries, including materials science testing lab. We offer full range of Pull-Off Adhesion Hydraulic Tester testing equipment, including Pull-Off Adhesion Hydraulic Tester testing kit, Pull-Off Adhesion Hydraulic Tester testing machine, Pull-Off Adhesion Hydraulic Tester testing tools, Pull-Off Adhesion Hydraulic Tester test equipment, Pull-Off Adhesion Hydraulic Tester test machines, Pull-Off Adhesion Hydraulic Tester for Lab Testing

---

Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Pull-Off Adhesion Hydraulic Tester testing equipment that helps customers build better, safer, and more sustainable infrastructure.
