

Product Name :
Vibro Consistometer

Product Code :
TEST5055RFQLAB-0008

Description :

Vibro Consistometer

Technical Specification :

For determining the consistency of concrete mixtures(5-30s)with the aggregate size less than 40mm.

Amplitude (with empty container): 0.5mm

Vibrating frequency: 50Hz

Counter weight: 2750g

Slump cone size: 100×200×300mm (upper diameter x bottom diameter x height)

We are a leading manufacturers of Vibro Consistometer testing equipment for a range of industries, including materials science testing lab. We offer full range of Vibro Consistometer testing equipment, including Vibro Consistometer testing kit, Vibro Consistometer testing machine, Vibro Consistometer testing tools, Vibro Consistometer test equipment, Vibro Consistometer test machines, Vibro Consistometer for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Vibro Consistometer testing equipment that helps customers build better, safer, and more sustainable infrastructure.
