

Product Name :
Water Leak Detector 220V

Product Code :
TEST5150RFQLAB-0001

Description :

Water Leak Detector 220V for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Power supply: 220V±5%, 50Hz
Power: 1.2kW
Speed regulating range (stepless speed regulation): 0~800r/min
Working temperature of static filtration test: ?232?
Working temperature of dynamic filtration test: ?150?
Filtration area: 22.6cm²
Safe working pressure of mud sample cup: 8Mpa
Safe working pressure of back pressure tester: 4Mpa
Capacity of sample cup: 500ml
Capacity of back pressure receiver: 95ml

We are a leading manufacturers of Water Leak Detector 220V testing equipment for a range of industries, including materials science testing lab. We offer full range of Water Leak Detector 220V testing equipment, including Water Leak Detector 220V testing kit, Water Leak Detector 220V testing machine, Water Leak Detector 220V testing tools, Water Leak Detector 220V test equipment, Water Leak Detector 220V test machines, Water Leak Detector 220V for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Water Leak Detector 220V testing equipment that helps customers build better, safer, and more sustainable infrastructure.
