

Product Name :
Portable Hardness Tester

Product Code :
TEST5160RFQLAB-0006

Description :

Portable Hardness Tester

Technical Specification :

Portable hardness tester is accurate and reliable that can easily and quickly measure a variety of metal materials.

It can display the hardness measurement value at the same time, and can be freely converted between different hardness systems.

Technical Parameters

Measuring direction: 360°

Display: segment LCD

Data memory: max. 100 groups (relative to impact times 32~1)

Working voltage: 3V (2 AA size alkaline battery)

Continuous working period: about 100 hours (with backlight off)

Communication interface: RS232

We are a leading manufacturers of Portable Hardness testing equipment for a range of industries, including materials science testing lab. We offer full range of Portable Hardness testing equipment, including Portable Hardness testing kit, Portable Hardness testing machine, Portable Hardness testing tools, Portable Hardness test equipment, Portable Hardness test machines, Portable Hardness for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Portable Hardness testing equipment that helps customers build better, safer, and more sustainable infrastructure.
