

Product Name :
Portable Metallic Materials Hardness Tester

Product Code :
TEST5160RFQLAB-0007

Description :

Portable Metallic Materials Hardness Tester

Technical Specification :

Portable hardness tester can measure the hardness of all metallic materials. +
Measuring range: (170?960) HLD
Resolution accuracy: $\pm 6\text{HLD}$, $\pm 1\text{HRC}$, $\pm 5\text{HB}$
Communication storage: 100 measurement series (relative to average times 32~1), USB1
Working time: About 150 hours (with default brightness)

We are a leading manufacturers of Portable Metallic Materials Hardness testing equipment for a range of industries, including materials science testing lab. We offer full range of Portable Metallic Materials Hardness testing equipment, including Portable Metallic Materials Hardness testing kit, Portable Metallic Materials Hardness testing machine, Portable Metallic Materials Hardness testing tools, Portable Metallic Materials Hardness test equipment, Portable Metallic Materials Hardness test machines, Portable Metallic Materials Hardness for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Portable Metallic Materials Hardness testing equipment that helps customers build better, safer, and more sustainable infrastructure.
