

**Product Name :**  
X-Ray Flaw Detectors

**Product Code :**  
TEST5161RFQLAB-0003

**Description :**

X-Ray Flaw Detectors

**Technical Specification :**

Portable X-ray flaw detector is designed to inspect welding quality of materials, parts and components such as hulls, pipes, high-pressure vessels, boilers, airplanes, vehicles and bridges, as well as quality of various light metal, rubber, ceramic and other processed parts.

The X-ray transillumination method is used to show processed parts and internal defects of welding from the X-ray film to evaluate product quality.

We are a leading manufacturers of X-Ray Flaw Detectors testing equipment for a range of industries, including materials science testing lab. We offer full range of X-Ray Flaw Detectors testing equipment, including X-Ray Flaw Detectors testing kit, X-Ray Flaw Detectors testing machine, X-Ray Flaw Detectors testing tools, X-Ray Flaw Detectors test equipment, X-Ray Flaw Detectors test machines, X-Ray Flaw Detectors for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use X-Ray Flaw Detectors testing equipment that helps customers build better, safer, and more sustainable infrastructure.
