

Product Name :
Multi-Functional Rebar Locator

Product Code :
TEST5162RFQLAB-0002

Description :

Multi-Functional Rebar Locator for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Rebar locator is a multi-functional integrated rebar detector which can be used for testing the thickness of protective layer, measuring the diameter, location, and distribution of rebar as well as for detecting the corrosion content of rebar.

Measuring range of rebar diameter: \varnothing 6mm~50mm

Rebar cover meter
range (mm): First range
3~98

Max. allowed error
for cover

meter: \pm 1mm 6~56

\pm 2mm 58~69

\pm 4mm 70~98

Max. allowed error for diameter measurement \pm 1 rebar standard level

Data transmission: USB

USB port: Thumb drive storage available

We are a leading manufacturers of Multi-Functional Rebar Locator testing equipment for a range of industries, including materials science testing lab. We offer full range of Multi-Functional Rebar Locator testing equipment, including Multi-Functional Rebar Locator testing kit, Multi-Functional Rebar Locator testing machine, Multi-

Functional Rebar Locator testing tools, Multi-Functional Rebar Locator test equipment, Multi-Functional Rebar Locator test machines, Multi-Functional Rebar Locator for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Multi-Functional Rebar Locator testing equipment that helps customers build better, safer, and more sustainable infrastructure.
