

Product Name :
Tensile Strength Tester Hand Operated

Product Code :
TEST5057RFQLAB-0001

Description :

Tensile Strength Tester Hand Operated for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Used for estimation of tensile strength of cement briquettes.

The equipment comprises the following :-

A loading machine, double lever type, with a steel scale marked from 0 to 500 Newtons in 10 Newton division.

Maximum loading capacity 5 kN. Automatic loading system using lead shot.

Lead shot 15 kg.

Set of weights for weighing lead shot comprising one each for weighing upto 0.5 kN, 1 kN, 1.5 kN and 2 kN.

We are a leading manufacturers of Tensile Strength Tester Hand Operated testing equipment for a range of industries, including materials science testing lab. We offer full range of Tensile Strength Tester Hand Operated testing equipment, including Tensile Strength Tester Hand Operated testing kit, Tensile Strength Tester Hand Operated testing machine, Tensile Strength Tester Hand Operated testing tools, Tensile Strength Tester Hand Operated test equipment, Tensile Strength Tester Hand Operated test machines, Tensile Strength Tester Hand Operated for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Tensile Strength Tester Hand Operated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
