

**Product Name :**  
Vibrating Compaction Device

**Product Code :**  
TEST5167RFQLAB-0003

**Description :**

Vibrating Compaction Device

**Technical Specification :**

This equipment is used for manual compaction of soil samples in proctor molds.  
Hammer drop: 305mm / 457mm  
Hammer diameter: 50±0.05mm

We are a leading manufacturers of Vibrating Compaction Device testing equipment for a range of industries, including materials science testing lab. We offer full range of Vibrating Compaction Device testing equipment, including Vibrating Compaction Device testing kit, Vibrating Compaction Device testing machine, Vibrating Compaction Device testing tools, Vibrating Compaction Device test equipment, Vibrating Compaction Device test machines, Vibrating Compaction Device for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Vibrating Compaction Device testing equipment that helps customers build better, safer, and more sustainable infrastructure.
