

Product Name :
Miniature Vane Shear

Product Code :
TEST5171RFQLAB-0002

Description :

Miniature Vane Shear for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Mini cross-plate shear is a portable instrument that measures the shear strength of a soil indoors or in field. Used with mini penetration instrument to quickly assess internal friction angle of the soil & determine if the soil is sticky.

Size mm: Measuring Range

Ø 25.5: 0~1

Ø 19: 0~2.5

Ø48: 0~0.2

We are a leading manufacturers of Miniature Vane Shear testing equipment for a range of industries, including materials science testing lab. We offer full range of Miniature Vane Shear testing equipment, including Miniature Vane Shear testing kit, Miniature Vane Shear testing machine, Miniature Vane Shear testing tools, Miniature Vane Shear test equipment, Miniature Vane Shear test machines, Miniature Vane Shear for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Miniature Vane Shear testing equipment that helps customers build better, safer, and more sustainable infrastructure.
