

Product Name :
Permeability Apparatus

Product Code :
TEST5005RFQLAB-0001

Description :

Permeability Apparatus for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Compaction Permeameter Mould 1000 ml capacity, clamped between top and bottom drainage plates having recess for porous stones. Supplied along with a false bottom plate for use during compaction of soil in the permeameter and extension collar.

Stand pipe panel, with three glass tubes of 6 mm, 10 mm and 20 mm dia, one meter long, supplied with wooden meter scale and 3 meter rubber tubing

We are a leading manufacturers of Permeability Apparatus testing equipment for a range of industries, including materials science testing lab. We offer full range of Permeability Apparatus testing equipment, including Permeability Apparatus testing kit, Permeability Apparatus testing machine, Permeability Apparatus testing tools, Permeability Apparatus test equipment, Permeability Apparatus test machines, Permeability Apparatus testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Permeability Apparatus testing equipment that helps customers build better, safer, and more sustainable infrastructure.
