

Product Name :
Balances Analytical Balances

Product Code :
TEST5176RFQLAB-0014

Description :

Balances Analytical Balances

Technical Specification :

Balances Analytical Balances
Has a built-in calibration weight for easy calibration.
High accuracy and repeatability for essential weighing applications.
Suitable for all laboratory, industrial and educational settings.
Second line display for additional information or guidance.
USB and RS232 connectivity for easy communication.
Cast metal lower housing and sub-pan.
Stainless steel weighing pan.
Internal calibration weight.
Capacity: 420g
Outer keyboard with direct reading LCD
Dustproof Plexiglas cover
Resolution: 0.01g
Mains and battery operated (batteries included)
Mains Voltage: 220-240V 0- 60Hz.
