

Product Name :
100 kN Flexure Testing Machine Hand Operated

Product Code :
TEST5062RFQLAB-0001

Description :

100 kN Flexure Testing Machine Hand Operated for Testing Lab Equipment Tender Suppliers India

Technical Specification :

This model is hand version model comprising of a four pillar loading unit with a jack at the base. The top of the jack carries the table for the beam and has two rollers whose center distance can be adjusted to suit cross sectional area of sample beam.

Top plate has an adjustable seating and a member with two rollers.

We are a leading manufacturers of 100 kN Flexure Testing Machine Hand Operated testing equipment for a range of industries, including materials science testing lab. We offer full range of 100 kN Flexure Testing Machine Hand Operated testing equipment, including 100 kN Flexure Testing Machine Hand Operated testing kit, 100 kN Flexure Testing Machine Hand Operated testing machine, 100 kN Flexure Testing Machine Hand Operated testing tools, 100 kN Flexure Testing Machine Hand Operated test equipment, 100 kN Flexure Testing Machine Hand Operated test machines, 100 kN Flexure Testing Machine Hand Operated for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use 100 kN Flexure Testing Machine Hand Operated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
