Product Name :
Repair Of Laboratory Equipment

Product Code :
TEST5176RFQLAB-0048

Description :

Repair Of Laboratory Equipment

Technical Specification :

Repair of Laboratory Equipment
Steel Tester
Capacity 2000KN
Machine fault : Pump not working, faulty electric motor
Work to be done : repair and calibrate
Multispeed CBR/Marshall Tester
Machine Fault : both machines are not taking commands, faulty LCD
Work to be done : repair and calibrate
Concrete Press
Capacity 2 000 KN
Fault machine not taking commands, faulty LCD
Work to be done : repair and calibrate
CBR Compactor
Fault Machine not able to lift and rotate hammer
Ovens
(5a) Voltage 220V 50Hz
Wattage 4000Wats
Phase I phase
5b) Voltage 220V 50Hz

Wattage 3000W.
