

Product Name :
Field Density Kit

Product Code :
TEST5006RFQLAB-0001

Description :

Field Density Kit for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Cylindrical core cutter 100mm inner dia x 130mm long with bevelled cutting edge and having wall thickness of 3 mm.

Steel dolley 100 mm inner dia x 25 mm high.

Rammer with steel rod for driving the core cutter.

We are a leading manufacturers of Field Density testing equipment for a range of industries, including materials science testing lab. We offer full range of Field Density testing equipment, including Field Density testing kit, Field Density testing machine, Field Density testing tools, Field Density test equipment, Field Density test machines, Field Density testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Field Density testing equipment that helps customers build better, safer, and more sustainable infrastructure.
