

Product Name :
Oxyacetylene Gas Welding Kit

Product Code :
TEST5190RFQLAB-0001

Description :

Oxyacetylene Gas Welding Kit for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Oxyacetylene gas welding kit

General Maintenance Work - Extremely Popular General Maintenance Work, Automotive Repair, Metal Sculpture, Air Conditioning, Refrigeration etc.

Ideal Use - For iron or steel welding, braze-welding, plus brazing, cutting, bending & forming.

Waterproof Storage Compartment - Carrier is made of tough, lightweight polypropylene; Waterproof storage compartment.

Oxygen regulator: 2 stage Inlet gauge:0-4000PSI –outlet gauge:0-100PSI,Right hand thread outlet hose fitting.1/4”MFL outlet compatible with the oxygen cylinder. CGA540

Acetylene regulator: 2 stage inlet gauge:0-400PSI, outlet gauge:0-30PSI. Left hand thread outlet hose fitting, ¼” MFL outlet. CGA510

Kit includes: (15 Pcs)

2 pcs: hoses (oxygen & Acetylene)

2pcs: Regulators (oxygen & Acetylene)

1Pc: Torch handle

5 Pcs: Nozzle tips for welding

1Pc: cutting nozzle tip

1Pc: cutting attachment
2Pc: flashback arrestors (oxygen & Acetylene)
1Pc: Flint lighter
