

**Product Name :**  
Saybolt Viscometer Electrically Heated

**Product Code :**  
TEST5072RFQLAB-0001

**Description :**

Saybolt Viscometer Electrically Heated for Testing Lab Equipment Tender Suppliers India

**Technical Specification :**

For determining the Saybolt Viscosity of petroleum products within 70°-210°F temperature range and Saybolt Furol Viscosity of bituminous materials within 250°-450°F temperature range. The equipment consists of a cylindrical cup, a Universal Tip, a Furol Tip, a stirrer, a receiving flask, a filter funnel, a withdrawal tube, a thermometer support, a bath fitted with an immersion heater and an auto-transformer. Suitable for operation on 220V, 50 Hz, Single phase supply.

We are a leading manufacturers of Saybolt Viscometer Electrically Heated testing equipment for a range of industries, including materials science testing lab. We offer full range of Saybolt Viscometer Electrically Heated testing equipment, including Saybolt Viscometer Electrically Heated testing kit, Saybolt Viscometer Electrically Heated testing machine, Saybolt Viscometer Electrically Heated testing tools, Saybolt Viscometer Electrically Heated test equipment, Saybolt Viscometer Electrically Heated test machines, Saybolt Viscometer Electrically Heated for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Saybolt Viscometer Electrically Heated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
