

**Product Name :**  
Subcool and Superheat Calculator

**Product Code :**  
TEST5193RFQLAB-0002

**Description :**

Subcool and Superheat Calculator for Testing Lab Equipment Tender Suppliers India

**Technical Specification :**

Subcool/ superheat calculator

37 Refrigerants (R22, R32, R114, 123, R124, R134, R134a, R141B, R142B, R290, R401A, R401B, R404A, R407A, R407B, R407C, R407D, R407F, R408A, R409A, R410A, R411A, R411B, R414A, R414B, R417A, R421A, R422A, R422B, R422C, R422D, R427A, R434A, R437A, R438A, R441A, R507A)

Easily look up saturated temperature using the pressure from any gauge set.

Hold function keeps data on the LCD even when thermocouple disconnected.

Clamp-on K-Type thermocouple included to achieve accurate temperature measurement.

View bubble and dew temperature for corresponding pressure on large LCD display.

Easily select superheat or subcool temperature with a touch of a button.

?F or ?C temperature

Displays bubble, saturated and dew point temperatures

Pressure displays in Kg/cm<sup>2</sup>, MPa, Bar, PSI (0-600 PSI)
