

Product Name :
Abel Flash Point Apparatus Gas Heated

Product Code :
TEST5074RFQLAB-0001

Description :

Abel Flash Point Apparatus Gas Heated for Testing Lab Equipment Tender Suppliers India

Technical Specification :

For determining the closed cup flash point of petroleum products & mixtures and other liquids having flash point within 19°-49°C temperature range.

Oil cup consisting of a cylindrical vessel open at the top and fitted on the outside with a flat circular flange projecting at right angles. Within the cup there is a gauge consisting of a piece of wire bent upwards and terminating in a point. The cup is provided with a close fitting cover.

Abel Flash Point Apparatus (Electrically Heated)

We are a leading manufacturers of Abel Flash Point Apparatus Gas Heated testing equipment for a range of industries, including materials science testing lab. We offer full range of Abel Flash Point Apparatus Gas Heated testing equipment, including Abel Flash Point Apparatus Gas Heated testing kit, Abel Flash Point Apparatus Gas Heated testing machine, Abel Flash Point Apparatus Gas Heated testing tools, Abel Flash Point Apparatus Gas Heated test equipment, Abel Flash Point Apparatus Gas Heated test machines, Abel Flash Point Apparatus Gas Heated for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Abel Flash Point Apparatus Gas Heated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
