

Product Name :
Pensky Martens Flash Point Closed Tester Gas Heated

Product Code :
TEST5075RFQLAB-0001

Description :

Pensky Martens Flash Point Closed Tester Gas Heated for Testing Lab Equipment Tender Suppliers India

Technical Specification :

For determining flash point of petroleum products

(Above 49°C flash point range)

It has a brass coil cup fitted with a heat resistance handle. The cup is provided with a lid which includes stirring device, a cover, shutter and a flame explosive device. The shutter is operated by a spring handle. A flexible shaft is provided in the hand operated stirrer.

A Cast Iron stove is fitted with a metal top plate mounted on an upright member (Gas Manifold) and it feeds a needle valve controlled burner.

We are a leading manufacturers of Pensky Martens Flash Point Closed Tester Gas Heated testing equipment for a range of industries, including materials science testing lab. We offer full range of Pensky Martens Flash Point Closed Tester Gas Heated testing equipment, including Pensky Martens Flash Point Closed Tester Gas Heated testing kit, Pensky Martens Flash Point Closed Tester Gas Heated testing machine, Pensky Martens Flash Point Closed Tester Gas Heated testing tools, Pensky Martens Flash Point Closed Tester Gas Heated test equipment, Pensky Martens Flash Point Closed Tester Gas Heated test machines, Pensky Martens Flash Point Closed Tester Gas Heated for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Pensky Martens Flash Point Closed Tester Gas Heated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
