Product Name:

GPS -Flex Rover set with Accessories

Product Code:

Description:

GPS -Flex Rover set with Accessories

Technical Specification:

The GPS is the true flagship of the receivers. Equipped with latest cutting-edge measurement engine and supporting fast converging Precise Point Positioning (PPP). Assures a workflow tailored to your needs thanks to the user-centered Ultimate field software or the flexibility to run your own software on any field controller. The combination of all this in a GNSS smart-antenna creates a solution that is second to none.
