

Product Name :
Relative Density Apparatus

Product Code :
TEST5008RFQLAB-0001

Description :

Relative Density Apparatus for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Vibrating table, suitable to work with 440V, 50 Hz. Three phase power supply. Vibration deck of size 750 mm square, vibrating at a frequency of 3600 vibrations / min under a 115 kg load and amplitude variable from 0.05 mm to 0.65 mm.

Cylindrical unit weight mould, 3000ml capacity.

Guide sleeve with clamps for item (ii) above.

Surcharge weight with handle for (ii) above.

Surcharge base plate with handle for (iv).

Cylindrical unit weight mould, 15000ml capacity.

Guide sleeve with clamp for item (vi) above.

Surcharge weight with handle for (vi).

Surcharge base plate with handle for (viii)

Handle for surcharge base plate.

Metal calibration bar 75 x 300 x 3 mm.

Dial gauge holder.

Dial Gauge 0.01 mm x 50 mm one no.

We are a leading manufacturers of Relative Density Apparatus testing equipment for a range of industries, including materials science testing lab. We offer full range of Relative Density Apparatus testing equipment, including Relative Density Apparatus testing kit, Relative Density Apparatus testing machine, Relative Density

Apparatus testing tools, Relative Density Apparatus test equipment, Relative Density Apparatus test machines, Relative Density Apparatus testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Relative Density Apparatus testing equipment that helps customers build better, safer, and more sustainable infrastructure.
